

W/B 12th November

This week we have continued to study Space through Science. We have looked at the movement of the Earth, Sun and Moon, the phases of the moon, day and night and the seasons. We have conducted physical experiments and analysis of the Earth, shadows and the moon phases.

In Maths this week, Year 5 have been developing their knowledge within fractions and decimals. Children have been finding common denominators and have been converting between decimal and fraction representations.

In Literacy, we have been finalising our final edits for our Sci Fi story. We have been overwhelmed by the beautiful use of figurative language development of suspense. War of the Worlds is nothing compared to our year 5 stories.

Treasure Chest:

Miss Suri chose both Taylor Avery for his amazing Sci Fi story, improvement in writing and amazing reviews from how he is at home. A true role model!

Mr Hughes chose Steven Jennings, our new addition to year 5. He has settled in well and is an excellent contributor during learning.

Well done to all of our winners!

Attendance:

5S is currently at % attendance

5H is currently at % attendance
